

I received an xm radio for christmas and throughly enjoy it. The weather channels have helped me greatly as I am an over the road truck driver. It is wonderful to know ahead of time what the weather is like and if I need to take an alternate route to make my deliverys. I hope we can continue getting this information. It is a great help to the truck drivers out here. The traffic news we get lets us know what is ahead as well. Please do all that can be done to keep the available to us. It is a great service and very asset to each and every one of us.Thank you , Sharon Russell.
